

NUCLEAR FACILITY PROCEDURE

Procedure No: NF-OP-001

1.0 Purpose

This procedure provides instructions for routine nuclear facility operations.

2.0 Scope

This procedure applies to all operational staff in the nuclear facility.

3.0 Prerequisites

Personnel must be qualified and have current training.

3.1 Safety Requirements

All safety systems must be operational before proceeding.

3.2 Equipment Status

Verify all equipment is in proper working condition.

4.0 Procedure Steps

Follow these steps in sequence:

4.1 Initial Setup

Perform initial system checks and preparations.

4.1.1 Control Room Check

Verify control room status indicators.

4.1.2 System Alignment

Confirm all systems are properly aligned.

4.2 Operations

Execute the operational sequence.

4.2.1 Start Sequence

Begin the startup sequence as follows.

4.2.2 Monitor Parameters

Continuously monitor all critical parameters.

5.0 Post-Procedure

Complete all post-procedure requirements.

5.1 Documentation

Record all actions taken during the procedure.

5.2 Equipment Restoration

Return all equipment to normal operating status.
